Available ALL events including 28 ga. Singles & Doubles

How does it work?

- ▶ When all the shooting has been completed, the scores are listed in numerical order from the highest to the lowest.
- ▶ They are then divided into as many groups as listed in the shoot program Lewis option.
Example: If there were 30 entries and 3 groups, *(the use of 3 groups is only an example)*, there would be 10 scores in each group. The highest score in each group would then be a winner.
- ▶ Since there will often be odd numbers of entries and tie scores on the dividing line between the groups, the following rules have been established.
 1. Where a short group is necessary, due to odd entry list, the short group or groups shall head the list.
 2. Where the line of division falls in a number of tie scores, the contestants are assigned to the group in which the majority of the scores appear.
 3. Where an equal number of tie scores appear on either side of the line contestants are assigned to the head of the lower group.
 4. Where the original division is changed, due to tie scores, this change shall apply only to the groups directly affected and the original division shall continue in the other groups.
