

Pacific International Trapshooting Association Youth - Education - Shooting Program

Dear Members,

The future of trapshooting depends on the next generation, but at the Pacific International Trapshooting Association (PITA), we believe in supporting our youth far beyond the trap line. Through our Youth Education and Shooting (YES) program, we are dedicated to raising funds for scholarships that help our young athletes pursue their college or vocational dreams.

We are reaching out to ask for your support in helping these students achieve their academic goals. By contributing to the YES program, you are making a direct investment in the education and future success of our youth shooters.

There are two primary ways you can help us grow the scholarship fund this year:

- **Tax-Deductible Donations:** You may make direct financial contributions to the YES program. These donations are tax-deductible and go directly toward funding scholarships for deserving young athletes.
- **Silent Auction Donations:** You can donate items to the YES Silent Auction held during the Grand Pacific. All proceeds from these auctions are dedicated to our scholarship awards.
- **Blanket Raffle:** You can purchase raffle tickets throughout the year by contacting us, or at several shoots including the Grand Pacific.

By supporting the YES program, you are rewarding the hard work, discipline, and sportsmanship these athletes demonstrate every time they take the line. Your generosity ensures that their dedication to the sport opens doors to their future education.

Would you be willing to help us reach our scholarship goal? Please contact Matt Smith, or any other member of the PITA YES Committee, to arrange a donation.

Thank you for your commitment to our youth and for helping them shoot for their dreams.

Best Regards,

Your PITA YES Committee
